Re: use of 10,000 gallon underground storage tank

Dear Board of Selectmen,

Please accept this letter as my formal request for permission to use an existing 10,000 gallon underground storage tank located on the premises of 408 Massachusetts Ave for the storage of diesel fuel. The tank is currently storing mid-grade gasoline (plus) which I no longer plan on storing for re-sale. It is my hope that the storage of diesel fuel will begin once the inventory of the mid-grade gasoline has been depleted.

I have enclosed a copy of the fuel storage license currently on file. If I can provide you with any additional information please contact me at 781 894-5058.

Respectfully,

A handwritten signature in black ink, appearing to be 'VC' with a long horizontal stroke extending to the right.
